**THE SHADOWS**  
PREMIER COLLECTION

*Apache / Man Of Mystery / Foot Tapper / FBI / Kon-Tiki / Stingray / Theme For Young Lovers / Parisienne Walkways / Theme From The Deer Hunter / Don't Cry For Me Argentina / Bright Eyes / Rodrigo's Guitar Concerto / The Frightened City / Riders In The Sky / Guitar Tango / Genie With The Light Brown Lamp / The War Lord / A Place In The Sun / Atlantis / Wonderful Land / The Savage / Geronimo / Shindig / The Rise And Fall Of Flingel Bunt / Maroc 7 / Dance On!*

An easy one, this. Take all 20 tracks of '20 Golden Greats', top them up with half a dozen from 'String Of Hits' (*Riders In The Sky* is the album not the single version commoner nowadays), and there is your 'Premier Collection'. *Wonderful Land* is the mock stereo implementation which is becoming quite uncommon now; *Theme For Young Lovers* is well presented, with lead guitar in the left channel as it was originally, but *The War Lord* in mono is no asset, any more than is the single version of *Foot Tapper* in stereo. The insert skirts round the once thorny question of who composed *Stingray* by omitting its credits altogether.
