Here is a bargain if you are strapped for cash and don't have the 1998 EMI CD "The Original *Hank Marvin* With Ten Bonus Tracks", viz. all twelve numbers from the sublime eponymous album from 1969 supplemented by *Evening Comes* / *Boogitoo* / *Goodnight Dick* / *Wahine* / *Sunday For Seven Days* / *Midnight Cowboy* / *Morning Star* / *Would You Believe It* / *Break Another Dawn* / *London's Not Too Far*. What you won't get though is the superb annotation from the pen of Rob Bradford. Further details on this earlier release can be found in *Shadsfax* Issue 20 (1998) p. 6.

A couple of points on composers. *High Sierra* (Marvin / Lordan) is registered with BMI under the names of Hank Marvin and Petrina (**not** Jerry) Lordan. And can anybody identify more precisely the "Nicholson" credited with *Break Another Dawn*?
